Frameworks & Tools: Agile, Scrum, GTM, MVP, A/B Testing, JIRA, Confluence, Whimsical, AI-assisted Product Development

PROFESSIONAL EXPERIENCE

Director - Core Lending Suite

M2P Fintech | Nov 2024 - Present | Bengaluru, India

- Accelerated product-launch timelines by 40% across 15+ banks, NBFCs, and fintechs by leading product strategy for an API-first, low-code Core Lending Suite spanning LOS, LMS, and configurable lending workflows.
- Generated $50M+ in loan volume across 5 enterprise accounts by launching a Co-Lending Module with multi-lender orchestration, lender-level splits, triple repayment schedules, and real-time reconciliation.
- Increased platform revenue by 25% and scaled support for a $200M+ portfolio by building a Loan Against Securities product with automated valuation, LTV controls, and flexible repayment logic.
- Owned roadmap across co-lending, LAS/LAMF, LMS, repayments, escrow, reconciliation, collections, and compliance-heavy lending workflows within M2P's Core Lending Suite.
- Drove product requirements for configurable co-lending workflows covering partner onboarding, product mapping, blended rates, fee and charge splits, escrow routing, COA mapping, lifecycle events, and lender reporting.

Director - Product, Lending

Paytm | Nov 2022 - Nov 2024 | Bengaluru, India

- Drove 4x YoY growth in loan disbursals by owning product strategy and execution for Paytm's Loan Management System in a high-growth B2C lending business.
- Reduced billing cycle time by 65% and eliminated manual calculation errors by launching a Lending Revenue Data Product with automated configuration and calculation logic.
- Scaled servicing for 500K+ active borrowers by building and leading a team of 3 Product Managers and partnering with engineering and QA on roadmap execution.
- Secured ₹1500Cr+ in monthly disbursal capital by integrating 5 lending partners through APIs and real-time fund-settlement reconciliation.
- Reduced support queries by 40% and churn by 10% by automating TechOps workflows and launching UPI Autopay.
- Reduced customer-support issues by 5% by implementing an automated late-fee waiver system with rule-based thresholds up to ₹10 lakh.

- Processed 20K+ monthly excess-reversal requests and returned ₹1.9Cr+ to customers by deploying an automated refund workflow that improved trust and operational efficiency.

Lead Product Manager

Finvolv | Dec 2021 - Oct 2022 | Bengaluru, India

- Tripled ARR and sustained 27% quarterly growth by optimizing product packaging and driving market expansion across the B2B SaaS lending suite.
- Reduced time-to-market by 83% by standardizing feature sets and pre-configured variables for faster client deployments.
- Won 12+ financial-institution deployments by architecting an API-first lending stack spanning LMS, collections, and rules engine capabilities.
- Created $60M+ in customer lifetime value by launching and scaling lending products aligned to partner use cases.
- Acquired 500K+ users and built a 5M SAR portfolio by launching Aramex BNPL, Prepaid, and Part Pay products.
- Onboarded 35+ merchants by building a merchant portal for order management, settlements, and remittance.
- Increased approvals by 45% by deploying a real-time underwriting engine using 20+ decision parameters.
- Preserved the go-live timeline during COVID-19 disruption by pivoting the MVP launch plan and re-sequencing delivery.

Product Manager

AdiFi (Adi Partners) | Apr 2018 - Nov 2019 | Bengaluru, India

- Took AdiWealth from 0 to 1 by leading concept development, product strategy, and beta launch for a personal financial-management platform targeting unbanked users.
- Drove beta release readiness by defining roadmap, MVP scope, and execution requirements for a new financial-wellness product.

Deputy Manager & Relationship Manager - SME

State Bank of India | Jun 2011 - Mar 2017 | Kolkata, India

- Grew SME portfolio 171% YoY and acquired $1.79M in new business by managing client relationships and structuring credit solutions for SME customers.
- Ranked in the top 0.5% of officers by earning selection to the SBI-BCG MSME Transformation Project.

Systems Engineer

Infosys | Dec 2009 - Apr 2011 | Chennai & Mysore, India

- Delivered web applications for BNSF Railways and earned top-contributor recognition by shipping features across enterprise development projects.

EDUCATION

MBA - Indian Institute of Management Bangalore

B.Tech, Electrical Engineering - West Bengal University of Technology
